

# Are you buried in an *endless* stream of paper?

A black and white photograph of a man in a dark shirt and tie, looking up with a concerned expression. He is surrounded by a chaotic environment of stacked boxes and loose papers. The boxes are labeled with names like 'Church - Dillon', 'EDWARDS-JUAREZ', 'JULY 2002', '20# Xerographic 92 Bright Copy', 'CRUZ', and 'NGUYEN'. Some boxes are from 'Office DEPOT' and 'BANKERS BOX'. The man is holding a large sheet of paper in his left hand.

**SAF Imaging**  
**Document Conversion Services**  
A division of Sensory Access Foundation

SAF Imaging provides high quality, cost effective scanning of a wide range of documents photos, and slides. Whether it's meeting minutes, financial records, personnel files, reports, maps, engineering and architectural documents/drawings (sizes A – E), or photographs (up to size 12x18), SAF Imaging can convert virtually any document or photo. We will scan and transfer your information into a digital format and deliver it to you on CD, DVD, USB flash drive, other electronic media, or secure online hosting for easy accessibility and disaster recovery.

"This project has been made possible in part by a grant from Bernard A. Newcomb Foundation, a supporting organization of the Silicon Valley Community Foundation."
